

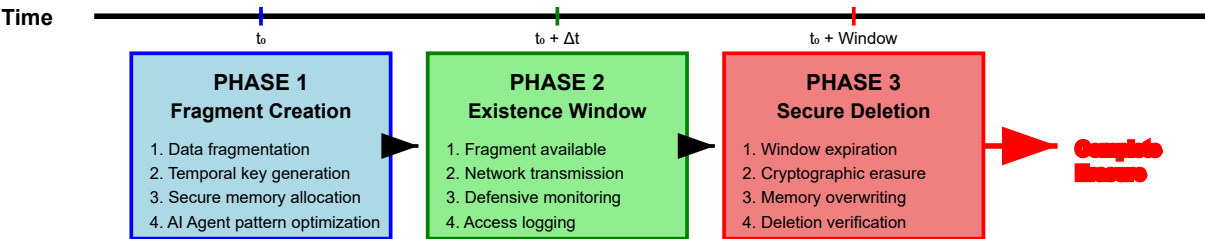

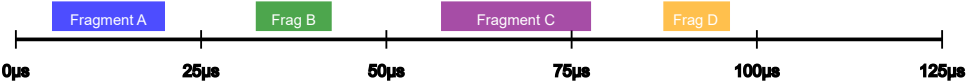

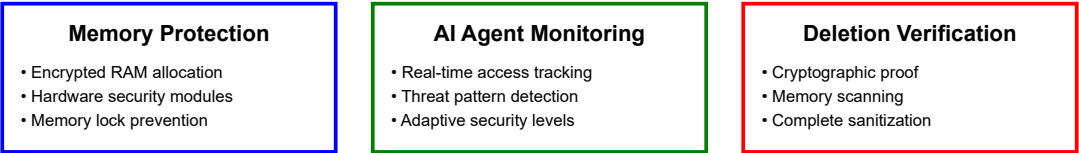

Figure 4: Ephemeral Fragment Lifecycle (MWRASP Defense)

Microsecond-Precision Timing Control

Defensive Security Enforcement (MWRASP)

Performance Specifications

Temporal Control Parameters:	
• Minimum Window: 1 microsecond	• Maximum Window: 999 microseconds
• Timing Precision: ±0.1 microseconds	• Creation Latency: <5 microseconds
• Deletion Speed: <1 microsecond	• AI Agent Response: <10 microseconds
• Verification Time: <2 microseconds	• Security Level: Enterprise MWRASP
