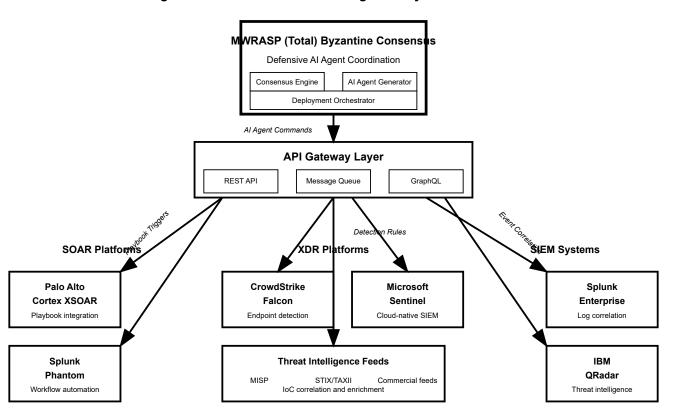

FIG. 7: Integration Architecture with Existing Security Orchestration Platforms

	Integration	on Protocol Specifications	
Authentication	Data Format	Transport	Compliance
• OAuth 2.0	• JSON/REST	• HTTPS/TLS 1.3	• SOC 2 Type II
API Keys	• CEF/LEEF	WebSockets	• ISO 27001
• mTLS	• STIX 2.1	Apache Kafka	NIST Framework
• SAML 2.0	OpenAPI 3.0	• RabbitMQ	• GDPR/CCPA

Implementation Benefits

- Seamless integration with existing infrastructure
- Standards-compliant API interfaces
- Enterprise-grade security protocols

Comprehensive MWRASP Integration Enables Enterprise Protection AI Agent Network Deployment
